DEATH.—At his late residence, No. 4, Romeo Terrace,
Hongkong, 1st December, a respected citizen,
Louis Kirschmann, at the age of 31 years. [1828]

The Daily Press.

HONGKONG, DECEMBER 5th, 1891.

The A. S. Press reports to learn that news has been received of the British three-masted schooner "Lioness" having had to be abandoned, in Newsway river, on account of ice.

The Mutual steamer "Fording" arrived at Shanghai on the 29th ult., with the "Haidi," a small tow, that vessel having broken her shaft half-way across from Japan.

The election of crews to compete in the Regatta or the American and German cup will take place this evening in the Gymnasium of the Recreation Club at 6 o'clock.

The cases which were down for hearing in the Summary Jurisdiction Court yesterday were postponed till today in consequence of the indisposition of Mr. Justice Chouck.

The armoured Chinese cruiser "Ping Yang," which left Weihaiwei for Chefoo but recently broke down about half a day's steaming from the former station and had to turn back for repair.

The Daily News says: "most of the military ladies who came down to Shanghai from Nanking during the riots on the river were returning to their station by steamer on the 30th ult."

The Shanghai correspondent of the Times telegraphed on the 23rd October, as follows:—"The case of Mr. Hart's son is being strongly urged by Sir R. Hart's friends in China in an attempt to get him released."

To-morrow morning, between 9 and 10.30 o'clock, the steam launch "Daypring," carrying the British flag, will sail alongside any vessel holding code pendant C, to convey men ashore at 11 a.m. services at St. Peter's (Seamark) Church, returning about 12.30.

A cricket match, H.K.C.C. v. Navy, R.A., and Army Service Corps, will be played to-day, commencing at 1 p.m. sharp. The following is the programme:—The Clubman, Dr. S. E. Keskil, G. Campbell Glazier, S. L. Darby, E. S. Keskil, G. Frankland, Q.M.S. Verkiss, E. A. Lammett, H. B. Pike, G. B. Purvis, C. Wallace, and J. G. Young, R.E. Tiffen on the ground.

The temperature of Nanking is getting pretty low, says the Daily News, for at 6 a.m. on the 22nd ult. the thermometer on board one of the steamers registered zero, though later on the 24th the mercury rose to 15 degrees. The water is about five feet, but in some places it was still lower, two feet. At the steamer had to leave in a hurry. The "Eagle" left the river on the evening of Monday and anchored near the lightship till midday on Tuesday, when he proceeded to Ofozhou, not having been able to discharge her cargo. Other steamers also had to leave in a hurry.

Recently Messrs. Sir Bayliss Dixon and Co. of Middlesex, Eng., launched from their 1 dock a steamer, 100 ft. long, for Peninsular and Oriental Steam Navigation Company, intended for their India and China service. The dimensions of this vessel are Length, 390 ft.; breadth, 43 ft.; depth, 30 ft. 3 in. She will carry about 2,700 tons deadweight or more, and 500 tons weight measurement. She is to be built of iron, and will be secured a hold of 100 ft. 6 in. The engines will be constructed by Messrs. T. Richardson and Sons, Hartlepool, having cylinders 28 in. by 45 in. and 72 in. diameter, with a stroke of 4 ft. 1 in.

The "N. C. Daily News" of the 30th ult. writes:—All was quiet at Ichang by latest advice, and the people were quite friendly to foreigners, who are mostly living in boats. The town is said to be in a state of great alarm, and the Chinese are trying to comprehend what the Boxer War means. The rebels advanced so far that they were advanced to the Praya. When they were advanced, the Association and giving it the status it deserves than by giving a bell, and it is hoped that the gratifying thought of course not brilliant result of the initial occasion will lead to another popular tribal fixture being made in the future.

The young but flourishing branch in Hongkong of the British Merchants' Marine Officers' Association gave a ball last night in the City Hall, the function being in all respects a success. The committee could scarcely have been more successful in making arrangements for the Harbour Master's Office. At a favourable moment when the "Sampan" was on the crest of the wave and washed against the Praya, the members succeeded in jumping on to the boat. When the boat was advanced, she secured a hold of her, and the Association and the Association and giving it the status it deserves than by giving a bell, and it is hoped that the gratifying thought of course not brilliant result of the initial occasion will lead to another popular tribal fixture being made in the future.
